MICRO PUMP ORANGE EDITION FROM XAVITECH
ORANGE Edition is suitable for those who need a high quality micro pump and can manage with a somewhat limited service lifespan. ORANGE Edition has a defined service lifespan of 1,000 hours and a fixed interface with your system.

• Affordable solution
• Guaranteed service lifespan
• Highest quality

MICRO PUMP WITH GUARANTEED FUNCTION OF 1,000 HOURS
It can be frustrating to need to adapt your product to variations in the service lifespans of pumps. With the ORANGE Edition, you get a micro pump that is guaranteed to work for the full 1,000 hours it was designed to do, at a very good price. In this way, you do not need to pay for pumps with longer service lifespans in order to be assured that the pump will actually work for the stated number of hours.

ORANGE EDITION PROVIDES HIGH QUALITY AT AN AFFORDABLE PRICE
Xavitech’s belief in high quality pervades this pump version. Flexibility is limited in the ORANGE Edition, which allows for such an affordable price. It is sold in a limited number of standard designs for each pump model. If this is too limiting, then we suggest you check out our BLACK edition instead.
**GENERAL SPECIFICATIONS**

**PUMP MODEL**

- **V200 ORANGE EDITION**

<table>
<thead>
<tr>
<th><strong>PERMISSABLE AMBIENT TEMP</strong></th>
<th>0 - 55 C (Extended temp. range can be approved)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>PERMISSABLE MEDIUM TEMP</strong></td>
<td>0 - 55 C (Extended temp. range can be approved)</td>
</tr>
<tr>
<td><strong>FLOW MEDIA</strong></td>
<td>Air and gas. (Ask for compatibility)</td>
</tr>
<tr>
<td><strong>WETTED PARTS</strong></td>
<td>EPDM and PPS (Other materials on request)</td>
</tr>
</tbody>
</table>

**CAPACITORS**

- Missing VCC capacitor can damage the pump. See electrical interface datasheet

**CONNECTIONS**

- Incorrect lead connection can damage the pump

**FILTERS**

- To insure lifetime, air filters should be used in order to prevent contaminations like dust to enter the pump

**FLOW TOLERANCES**

- Flow can vary +/- 5% of calibrated specification between individual pumps

**VACUUM AND PRESSURE TOLERANCES**

- Vacuum and pressure can vary +/- 5% of calibrated specification between individual pumps

**PUMP FLOW**

- Flow can only be in one direction and can not be reversed

---

**GENERAL FLOW PERFORMANCE V200 PUMPS**

Calibrated free flow > 300 ml/min

Maximum vacuum: >350 mbar

Maximum pressure < 100 mbar

Flow can be calibrated to deliver a certain flow at a certain vacuum level. Ask more about custom calibration.
STANDARD MODELS (Part number)

The ORANGE version is only available in fixed voltages and cannot be customized on flow calibration. The lifetime is also fixed. Choose the BLACK edition if more flexible solutions are required.
